

12th IEA Heat Pump Conference Rotterdam 2017 Workshop Energy Technology Network

Joint Workshop IEA HPT Annex 49/50 and IEA EBC Annex 67 Heat pumps for nZEB, retrofit and energy flexibility Diamond Room 1, Monday, May 15, 2017, Morning

IEA HPT Annex 49: Design and integration of heat pumps for nZEB

9.30 – 9.45	Overview of IEA HPT Annex 49	(C. Wemhoener)
9.45 – 10.05	Long-term monitoring and smart heat pumps for nZEB	(F. Bockelmann, C. Betzold)
10.05 – 10.20	Vögelebichl Innsbruck – Monitoring and simulation of two multi-family houses with heat pump, PV and collectors	(F. Ochs)

IEA HPT Annex 50: Heat pumps in multi-family houses

10.25 – 10:40	Overview of IEA HPT Annex 50	(M. Miara)
10.40 – 10.55	Retrofitting fossil fuel heating systems with A/W-heat pumps in multi-family houses	(F. Rognon)

11.00 – 11.15 Coffee Break

IEA EBC Annex 67: Energy flexible buildings

11.15 – 11.30	Overview of IEA EBC Annex 67	(J. Clauß)
11.30 – 11.45	Energy flexible smart grid / energy-ready buildings	(T. Péan)
11.45 – 12.00	Energy flexibility of thermal energy storage in the control of building energy systems	(C. Finck)

Discussions

12.00 – 12.30	Plenary Discussion of topics and wrap-up	(Moderator R. Beuken)
